Governor

Please oppose the ACP being permitted around the eastern NC. This pipeline is an outlet for WV gas which has no other markets. It will be an additional Carbon Print source. The bait that it will provide manufacturing jobs in depressed area is simply a lie. As a retired Petroleum Engineer and property owner in WV I now the downsides. The employment numbers attributable to pipeline operation are negligible.

Clean renewable energy Wind and Solar are the longterm answers for an environmental responsible state.

Thanks,

George Garcia
